

PRESBYTERIAN
CHURCH

March 13, 2004

To whom it may concern:

I am writing this letter on behalf of Norbert Gerl and the Gyros Quartet. For upwards of five years now, I have had the privilege of working closely with them as they have been the string quartet of choice for weddings at Park Cities Presbyterian Church. I highly recommend their work for four reasons:

1. They are excellent musicians and perform consistently, confidently, and sensitively every time I hear them play.
2. They are versatile. They perform the classical repertoire with ease, but are not out of their element when asked to play contemporary or pop genres.
3. They are flexible. They are not afraid of trying new things or spending the necessary time to make something work.
4. They are easy to work with. They approach their work with joy and are always accommodating to the needs of the service at hand.

In addition to these four items, I can also say that over the years the members of our church have *increasingly requested* the Gyros Quartet for their wedding service because they have heard them and enjoyed them at a friend's service.

Sincerely,

A handwritten signature in cursive script that reads "Colin Howland".
